

TEMPCHECK FOOD RECEIPTING SYSTEM

TempCheck provides a means of measuring temperature of incoming and outgoing produce at the point of despatch.

The system is comprised of an optical or stainless steel probe sensor connected to the TempCheck App to show and record temperature readings, allowing on the spot acceptance or rejection of produce deliveries.

The TempCheck App records supplier details and produce items, temperatures, user identification, time, date and location of reading. The information is recorded on the Sentry temperature monitoring platform, and reports sent on a daily basis. Supplier and produce items can be pre-programmed to facilitate the produce receipting process.

The TempCheck App is available for Apple and Android devices.

Key Features

- ▷ Accurate sensor temperature measuring technology
- ▷ Allows temperature measurement of produce at point of despatch
- ▷ TempCheck App available on Apple and Android devices
- ▷ Reports available via the Sentry temperature monitoring platform
- ▷ Easy sensor calibration
- ▷ Stores supplier details for easy receipting of produce

Applications

All Sentry monitoring products, including TempCheck, utilize the Sentry temperature monitoring software platform, providing an integrated monitoring and reporting system that consolidates the data from multiple temperature-controlled storage devices, and multiple sites, into simple, easy to view reports.

This allows different Sentry products to be used in combination with each other to provide the optimum integrated solution for any given application.

Applications of Sentry temperature monitoring products include transportation, receival, storage, processing and despatch of temperature sensitive goods in the food, pharmaceutical and medical industries, as well as climate-controlled environments including computer server rooms, laboratories and specialized manufacturing and storage facilities.

Food Industry

Climate Control

Manufacturing

Laboratories

Pharmaceutical

Whatever your application, Sentry can provide a low cost, easy to install solution for you.
